DUAL PLUS Modular Mattress Replacement

The Dual Plus mattress is customisable to suit individual patient needs. Localised healing can be created by easily swapping any of the 8" cells with the 5" bridging cell, providing reduced pressure zones, for example, heel zone.

GENERAL FEATURES

Easily Exchangeable Air Cells	All cells are connected with CPC connectors and are easy to repair on site
Instant CPR Dial	Rapid deflating the entire mattress within seconds in case of an emergency
Extra Soft 100% TPU Material	Ensuring patients safety from sharp and protruding objects while providing optimal comfort
Excellent Hygiene Control	Durable and washable coverlet that completely covers the mattress. Hospital grade mattress base with easily wipe clean material
Directional Snap	Specifically designed buttons, provide better structural stability from air cells
Easy Carry Design	Mattress is designed specifically for easy carrying
Bridging Cells	Green 5" bridging cell reduce interface pressure and are used to create localised healing zones. 1 per mattress, additional bridging cells can be purchased

TECHNICAL DETAILS

Risk/Category	Very High
Waterlow Score	20+
Pressure Sore Grading	4
Safe Working Load	Up to 250kg
Air Cell Configuration	20 x 8" cells
